Strengths of instructor / Course:

Good handouts.
 Jim has a lot of knowledge and experience to share and he's very patient.
 Very clear & original. Speaks clearly. Sometimes takes crucial steps too fast or only once.
 The instructor was very knowledgeable about the subject.
 Any time I got stuck (often!), Jim patiently guided me back to where I needed to be.
 Knowledge of Elements hand outs helped at home.
 Knowledge of material, pacing, patience.

Suggested changes to course:

Edit standard photos supplied by Jim.
 Do more follow-up of the instructor activities (work with same picture).
 Try to hold questions until end of particular topic. When someone asks a question, the talk goes off on a tangent and often doesn't go back to original topic.
 Everyone should work on the same photo in elements I beginner class. Too many off topic questions. Students would then use their own photos in Photoshop II class.
 Slow it down a little, having it not start on expert mode.
 Maybe offer more class times/days for a particular class.
 I tend to be a slow learner when it comes to computers, maybe a smaller class would have been better for me.
 No.
 Reconfigure the seating. Have all students work on the same photo now & then. Faster computers.
